© BGI IN TOUCH

## DON'T DRINK & DRIVE

Studies show that even a small amount of alcohol will adversely affect your ability to operate a motor vehicle safely. Your reaction time and capacity for making quick decisions will be severely hampered. By drinking and driving, you are very likely to be involved in an accident – not only hurting yourself but also potentially harming others.

## DRINKING IS NOT FOR EVERYBODY

Either for personal, religious, cultural, or other reasons many people choose not to drink. A decision to not drink should always be respected. Avoid or limit drinking when you are ill or if you are in a bad mood or situation where drinking doesn't feel right. Do not drink if you're underage or under the legal age limit. Underage consumption may be damaging to a person's physical and
